Marjorie Robinson takes down another request for senior citizen labor — but where will the workers come from? (Times photo)

Free employment help

Elderly can earn more

LIVERMORE — Sixty - five dollars a month buys a lot of extra goodies for a senior citizen living on a $300 - a - month .

But many local seniors don't realize they can earn up to that amount of money each month, without having to give up their income checks.

Marjorie Robinson is running a free "employment service" at the Senior Service Center, 2466 Eighth St. (at "H" Street) for seniors looking for odd jobs to bring in extra income. There are lots of openings for grandmotherly or grandfatherly - type people to care for children; some light housekeeping jobs; some positions that call for shopping and taking care of convalescents at home.

"But I'm having a terrible time filling these jobs!" confesses Marjorie, regarding her scanty file of willing job applicants.

"We used to have a teen program. That was great. Teen - agers can turn mattresses and get up on ladders to wash windows.

"Most of these elderly people can't. I wish some of the younger seniors would sign up for some of the more lively jobs."

She also wishes the teen program could be reinstated, since "her" oldsters make good use of the inexpensive labor to do some of the harder jobs around the house. But it wasn't funded for this year, so the Senior Service Center had to drop the project.

"I still keep the kids' names, hoping it will be reinstated," she says longingly.

"Those days are gone," she observes, "when you could get a live - in helper for free room and board and a few dollars' spending money.

"For $350 to $500 a month, they would accept it. But who can afford to pay that?"

Then there are people who need a senior to babysit early in the morning so they can go off to work. "These poor little souls," she says, "they've worked hard all their lives and raised families. They don't want to get up at 6 or 7 a.m. anymore."

So, Mrs. Robinson keeps adding to her job list and shuffling through her file of three dozen job applicants, matching abilities and interest with the jobs available.

Meanwhile, the Senior Service Center, cheerfully run by Lillian Snorf bustles with other activites. Some of their programs:

SENIOR CLUB: Ladies meet at 1 p.m. Mondays to work on handicrafts to be sold at the annual Christmas Bazaar. The club meets 1 - 4 p.m. Sundays at the Rec Center; cards and bingo follow the business meeting. Bowling is at 9 a.m. Mondays at Granada Bowl. A schedule of low - cost trips for 1977 is available.

CLASSES: Recreational singing, physical fitness after 50 and The Individual and Aging are free or cheap courses; details from the Senior Service Center.

DIAL A RIDE: 455 - 4100 for details on this transportation project.

HOME REPAIR: The Livermore Jaycees will do minor house repairs for the elderly, free; call the center at 443 - 1150 to make arrangements.

GOLD CARDS: Local merchants are offering discount "gold cards" to seniors; drop by the Rec Center office for yours to get 5 to 20 per cent off at selected stores and The Vine.

HEALTH: The Alameda County Mobile Health Van will be at the center in March; call the center at 443 - 1150 to make an appointment. A blood pressure clinic is scheduled for Feb. 7.

TAXES: No program has been scheduled yet, but before the April 1 deadline there will be volunteers at the center to help seniors fill out tax forms.

FOOD: Order a bag or half - bag of fresh produce, cheap, from the food co - op, which has tripled its membership since last April. The Senior Service Center is funded by the federal ACAP/ACTEB project and sponsored by the Livermore Area Recreation and Park District. The number is 443 - 1150 .

Trial delay seen in Dublin murder

LIVERMORE — The murder trial scheduled Monday morning for Barry Braeseke, accused of killing his parents and grandfather last August, will probably be delayed while lawyers argue the validity of recent confession rulings by the court.

Deputy District Attorney Michael Cardoza told The Times he will ask for a continuance while he seeks review of an evidentiary suppression motion.

He said he had questions about Superor Court Judge Winton McKibben's ruling that Braeseke's alleged confession to sheriff's deputies who arrested him was inadmissable.

The prosecutor also will seek additional preparatory time because he has been involved in another murder case in Hayward.

The defense attorney, James Crew of Hayward, is also planning to question a court ruling that a second confession — made to Cardoza hours after the arrest — was admissable, according to Cardoza.

Braeseke, 20, is accused of shooting to death his mother, father and grandfather in their 11418 Betlen Drive home, Dublin. According to his taped statement, he and David Barker, 16, of San Ramon, shot the family for the inheritance and insurance monies.

Previous court rulings ruled certain evidence as admissable, including the alleged murder weapon, a 22 caliber rifle, and other items confiscated by deputies before a search warrant was obtained.

Both Barker and Braeseke have pleaded not guilty to the murders.

At one time during court appearances, the defense pleaded not guilty by reason of insanity.

—by Neil Heilpern

Killing in Livermore

Livermore police have arrested a suspect, Norman Fogason, and are holding him at Santa Rita Rehabilitation Center on charges of voluntary manslaughter in the death of his wife. Barbara Forgason, about 40, was found dead in her apartment at 167 N. Livermore Ave. at 2:15 a.m. Saturday. The cause of death and further details were not available at press time.

Council travels

Pleasanton city council will meet at Fairlands School, 4151 West Las Positas Blvd., at 7:30 p.m. tomorrow in another of its series of monthly neighborhood meetings.

Streets, residential and commercial development and parks and recreation will be discussed by council members and a community discussion period will follow.

Find the bargain

Where are the best buys in groceries, clothing, audio and automobile accessories?

Students of consumer math teacher Jim Spurlin have the answer at California High School — a 38-page report detailing the Valley's best buys in numerous retail categories.

Exhaustive research by the math class led to a comprehensive look at what the consumer gets for his dollar, from pizza to pants.

The students may publish their study for general sale.

For details, see page 11.

Mayor to speak

Livermore Mayor Helen Tirsell will address the Las positas Chapter of the American Business Women's Association Tuesday at the Rancher in Livermore.

Cocktails will be at 6:30 p.m. followed by dinner at 7.

Vocational speaker will be Mrs. Steve King of the Sandia Credit Union.

Farewell Edgar

Pleasanton will say farewell officially to City Manager Bill Edgar at a dinner at the Castlewood Country Club Feb. 22.

There will be no-host cocktails at 7 p.m. and dinner at 8 p.m. Tickets are $9 per person and they may be reserved by calling 846-3202.

Edgar has resigned the city manager's position, effective at the end of the month, to become assistant city manager in Sacramento.

Reward posted

The San Ramon Valley Unified School District is authorizing a reward of $100 for information leading to the apprehension and conviction of the person or persons responsible for acts of vandalism at two district schools last weekend.

The damages to John Baldwin Elementary and Charlotte Wood Intermediate schools was estimated at $10,000.

Such information should be relayed to either of the following: John Hagopian, principal, John Baldwin School, 820-2944, or Steve Ow, principal, Charlotte Wood Intermediate School, 820-2922.

Case for rape

Assemblyman Floyd Mori introduced a bill last week which would change the legal definition of rape so it's possible for a woman to press charges against her husband for rape.

The change is needed especially in cases of separated or estranged spouses, said the Pleasanton Democrat. "A woman now legally separated from her spouse has no legal recourse if her husband forces himself upon her," said Mori.

More briefs, pg. 12

Strength in Unity: (from left) Bruce Bishop of LEA; Dave Woolworth of AVSEA; Bill Arrieta, Barbara Brunke, Joe Medeiros, all of LEA, announcing UniServ agreement.
(Times photo by Michael Macor)

Teachers seek unity in new UniServ plan

Valley teacher organizations are banding together to open a UniServ office in Dublin.

"There is strength in unity, and it's high time we get it!" said Livermore Education Association president Barbara Brunke, in announcing the move, which goes a step beyond the seven - year - old Valley Coalition.

Beginning next fall, teachers from San Ramon, Dublin, Pleasanton and Livermore will be supporting a $60,000 - a - year office in Dublin featuring an executive director and secretaries who will be on hand all day.

More on schools, pg. 11

The UniServ office will be supported by just over half the local dues (which will be $30 to $35 per member in all districts) plus $26.50 per member rebate from the California Teachers Association and a $7,500 grant from the National Education Association. Local teachers belong to all three.

Teachers claim the unification will bring them "the expertise and staff the district has had all along" to back them up in their yearly negotiations.

Their in - house executive director will be carefully chosen from among CTA - suggested candidates to bring them legal and political know - how. The salary for such a director could be $19,000 to $30,000 a year.

Currently, the CTA office in Hayward supplies a consultant whenever needed. CTA's savings in that department will make possible the substantial rebate from CTA going into the UniServ budget.

Teachers are looking forward to opening the new office this spring and having it fully staffed by next Sept. 1. Currently, each association operates a small local office with part - time staff.

There will still be a small local office in each district, supported with the $13 or so per member dues left over after UniServ is financed.

The current status of negotiations: Livermore Education Association representatives are still engaged in talks with the board; Murray Teachers Association has settled; San Ramon Valley Educators Association, having settled a representation dispute, is about to begin negotiations; Amador Valley Secondary Educators Association is in mediation and awaiting the outcome of an unfair labor practices suit; and Amador Valley Teachers Association (Pleasanton Elementary District) is awaiting a Feb. 10 fact - finding hearing.

Oppose SR tract

Homeowners beef up for appeal

SAN RAMON — The San Ramon Homeowners Association is seeking citizen support for the appeal they will be making Feb. 15, to the construction of a proposed subdivision by Woodhill Development.

Thursday night, SRHA executives and members adopted a motion to form a subcommittee that will explore details of presenting arguments at the appeal hearing.

The hearing is open to the public. It will be held at the offices of the Contra Costa County Planning Commission in Martinez.

The SRHA contends the new housing would crate a negative impact on existing schools. The proposed 109 single family unit development is slated to go up near San Ramon Valley Boulevard and Montevideo Drive.

The Contra Costa Planning Commission has already granted Woodhill Development permission to build.

The main thrust of the SRHA appeal will be based on a zoning technicality.

SRHA members said Woodhill had taken advantage of the fact the revised draft proposal of the San Ramon Valley general plan has not been approved by the Contra Costa County Board of Supervisors. It was revised and approved of by that county's planning commission.

The revised draft and the existing general plan require different types of zoning for the San Ramon Valley Boulevard - Montevideo Drive area.

The existing plan calls for R-10 zoning which allows more houses to be built per acre. The revised draft proposal requirement is R-15 and some R-40.

The R means the building lots are zoned for residential single family homes. The number specifies the minimum allowance of square footage per lot.

The SRHA hopes to stop Woodhill Development from building the proposed development. But if that fails, they want them to comply with the lower density R-15 and R-40 requirements.

SRHA President, Ed Laczynski, said anyone wishing to help support the appeal should call him at 828-0280.

Seniors get discounts

Many Valley businesses are participating in the senior discount gold card program which will go into operation soon. Seen at Kolln's Hardware in Pleasanton talking about the discount program are Wilma Osborne, Jack Kolln and John McElroy. Businesses which have received the program participation form are urged to reply if they have not done so already. Business proprietors who would like a participation form should call Congress of Valley Agencies, 846-3202, ext. 254, or the Pleasanton Department of Recreation and Human Resources, 846-3202, ext. 215. (Times Photo)

Linda Murray, left, of Livermore is shown some acupressure points by Geri Meyer, who will teach workshops on touch healing for Anthropos Foundation in February and March. Meyer learned the method, which is a "holistic" approach to health, at a humanistic psychology convention in San Diego last spring. (Times Photo by Ron McNicoll)

Livermore no tinsel town

LIVERMORE — Next Christmas may be 10 months away, but the city's beautification committee is researching alternatives to the "tinsel" decorations of the past few years.

With completion of a three year decorations contract this past December, the city council gave notice it was no longer going to fund the decorations from monies collected through business license fees.

The beautification committee, chamber of commerce and downtown merchants have been discussing the problem.

Ayn Weiskamp, outgoing chairwoman of the beautification committee, told The Times her group has been talking with officials from Saratoga and Los Gatos about their use of natural fir boughs and ribbons for their downtown holiday decorations.

"It's more natural and less expensive," she said, urging that Livermore "do away with the tinsel and the yellow Christmas trees."

Harry Silcocks was named new chairman of the committee at a meeting Wednesday in the Carnegie Building. Diana Bolander was reelected vice chairwoman. Gary Linford was named secretary.

In other business the committee:

— decided to ask the city if an unexpected additional $80,000 in federal funds designated for the proposed multi-service center be used for landscaping at the site.

— outlined a plan to acquire three more kiosks to serve as community bulletin boards. Committee members plan to ask officials of the Southern Pacific's shopping center and the Plaza Shopping Center to place kiosks at their locations. A third kiosk is envisioned at the multi-service center site.

— decided to investigate having additional murals painted in the city, similar to the one local high school students recently completed on a wall behind the Rincon Shopping Center to cover up "graffiti alley."

The committee will ask Granada High School art instructor Bernie Segal to show his film of the mural painting to the city council as soon as the film is completed.

— agreed to investigate the possibility and costs of installing new lights on First Street, similar to the ones on Second Street.

— agreed to review a presentation next month by Ecology Product Co. of America, a firm which proposes downtown trash containers paid for by dvertising on the sides. The advertising would pay cost of the cans, with pick up at no cost to the city.

— planned to ask CALTRANS about planting along I-580 near Portola Avenue. They discussed the possibility of using a million gallon water tank near Dolan Road to store effluent from the water treatment plant and use that water for the plants.

Heed employe, he can run you right out

PLEASANTON — One extra headache suffered by public sector managers that their private enterprise colleagues don't have is the ability of an employes group to dump politicians out of office.

That was the reminder from nationally known management consultant John Van De Water to a gathering of more than 40 management personnel from the cities of Pleasanton and Livermore and the various research laboratories in the Valley Friday.

In general Van De Water favors equity between employes in the public and private sectors, provided that none of the government jobs are makework. But he had to admit that when labor and management sit down at the bargaining table in the public sector, labor has an extra trum card over its cohorts in the private sector.

"Take for example the fire fighters union in Los Angeles County," said Van De Water. "In the fire department, all of the rank and file, supervisors and seven - eighths of the top management are in the fire fighters union. The personnel director has only an eighth of the fire department on his side.

"If the union isn't satisfied with negotiations, they can go around the process, go to the county board of supervisors, and say, 'This is how many thousands of dollars we have for the election next year.' With that kind of power, do you think they will agree with the personnel director?"

It was that kind of tactic which helped slide New York City into bankruptcy, said Van De Water.

The management consultant was full of tips on how to get the best out of an organization. For example, don't neglect the contribution of any employe, no matter how lowly or farout that person might seem.

A secretary at an advertising agency thought up the slogan, "You'll wonder where the yellow went, when you brush your teeth with Pepsodent."

"I hope they gave her a big bonus because Pepsodent made millions off that slogan and the ad agency did well," said Van De Water. "But if management had said, 'You're only a secretary; we don't want your suggestion', then they would have missed it. These ideas are pure gold."

Unique 'touch healing' class set in Livermore

Chiropractors, ancient Chinese sages and modern scientists have contributed to a new approach to healing which Geri Meyer will teach soon in Livermore.

The method, called "touch healing", is not intended to replace modern medicine, but supplement it. Meyer, a counselor who lives in Oakland, will teach the class Feb. 25, 26, 27 and March 25, 26, and 27 at the Anthropos Foundation, 1814 and 1818 Catalina Court.

Meyer first saw the method demonstrated at a convention in humanistic psychology convention in San Diego last spring and after practicing it herself for awhile now is ready to spread the word to anyone who wants to attend her workshops.

The method incorporates the acupressure techniques of ancient China, a vision of the body as a field of energy as modern scientists and ancient Hindus say it is, and the use of touch to guide energy through the body much as chiropractors are said to do.

The whole approach is much different than that of modern medicine, said Meyer. "It gets away from the medical model which talks about a symptom, a disease and a treatment," she said.

. , Instead of waiting until the body is sick, practicioners of touch healing — you can do it on yourself — do the exercises and tracings to unblock energy so the body stays fit and even improves, said Meyer.

It's even possible to test your body for allergies, she said. One touch healing practicioner ran an extensive series of tests on an individual and later it was found the tests correlated 99 per cent with those done by a modern, scientific allergy doctor, said Meyer.

The acupressure techniques work like the ancient Chinese art of acupuncture — touch one foot muscle, for example, and you will find relief in another part of the body. However, hand pressure, not needles, are used in acupressure.

lifestyle

Those were the days

By Lucy Hobgood-Brown

It took an Englishman to capture the charm of an American country fair in a way that not only tickles your fancy but your nostalgia streak as well!

When Leslie Jacobs saw how people flocked to be photographed behind life-sized cardboard cutouts of Pop twirling his handlebar moustache as he and Mom "took a spin" on a bicycle built for two, he decided to go one step further. A professional photographer, Jacobs has filled his Livermore studio with such nostalgic items as a flapper's beads, feathery fans and period costumes.

"I was born and raised in Europe where I was surrounded by old things," Jacobs says. "But here, it's something new." With the help of his Belgian-born wife, the photographer has "a marvelous time" creating just the right image for every client, whether it's a family portrait or a romantic solo. According to Jacobs, "people come from all around the Bay Area" to sit in black frock coats dating back to the 1870's, World War I uniforms and bathing suits reminiscent of "The Great Gatsby."

Realizing that Americans would be especially interested in identifying with their ancestors with the Bicentennial year coming up, the Jacobs began scouring antique shops for suitable props and costumes in 1975. "You should see how people relax when they're dressed up and back in the 1890's again," laughs Jacobs, adding, "They usually don't want to leave!"

The photographer confesses to once wanting to be a painter, until he found it "easier to take pictures." Today he enjoys the impact of The Country Studio has on first time customers, who are often accustomed to stark rooms filled with lights and a photographer who has his own ideas of what looks best for them. Instead they become so fascinated with the dazzling array of impressive hats, furniture and other props, Jacobs has no problem making babies gurgle and brides glow.

"I have raised the country fair pictures to an art," believes Jacobs, who revels in discovering unique techniques to produce the unexpected in all of his photographs. Not surprisingly, they are also fairly expensive. There's no doubt, however, that there will always be history-minded customers who enjoy posing in another era's castoffs.

John B. Edmands, Editor and Publisher

Did you hear the one about drought?

Americans find it difficult to take natural phenomenon seriously.

Quirks in atmospheric conditions tease the fantasy, prod wits, provide some strange satisfaction for that desire to break the humdrum.

Witness the curious Atlantic and Gulf coast ritual known as "Hurricane Parties."

California's fascination with earthquakes is equal parts fear and wisecrack.

Not until nature's vagaries cost us the roof on the house, or some far greater tragedy, do we respond with good sense.

Drought is a current case in point.

The West Coast's water shortage has been well chronicled, pleas for volunteer conservation endless. Are we listening, however?

Certainly we've responded with sufficient humor — bathe with a friend, roll down the windows in the car wash, don't throw out the bath water with the baby.

It's easy to laugh out here, where wells are deep enough to keep the water jug filled through summer.

The difficulty midst all this good humor is facing up to impending crisis. If it doesn't rain soon, and rain hard, we're all in trouble.

The East Bay Municipal Utiities District says its prime reservoir is lower than ever. Snow pack in the Sierras is at a record low.

River flow in Northern California may drop to 18 per cent of normal, far less than the flow of 1924, driest year this century.

The outlook is "terrifying," said Robert Burnash, chief of the National Weather Service's River Forecast Center.

For many, however, the situation won't hit home until the kitchen faucet trickles to a stop.

Howls of protest have been raised over mandatory rationing. But imposed cutbacks may be the only way to paint a picture of drought.

Water agencies are grappling with the problem now. Officials are understandably hesitant to restrict the flow of water to homes and businesses. Unless they get voluntary help from customers, though, they have no alternative.

They may be forced to cap the tap.

It's no longer a joke.

Legitimate business

Livermore has had a certificated masseuse working in her own home for more than five years in accord with the city's zoning and massage ordinances. That's all Lin Young is asking, too, in Pleasanton, but apparently her neighbors don't understand what she wants to do.

They speak anonymously to the planning department about "unsavory characters" coming into the neighborhood. While that may be true at massage parlors that are suspected of being prostitution fronts, it's not true of Young's approach to massage. She is a certificated masseuse and got into the profession because of her experience in the human growth movement.

Some people, inflicted with a heavy dose of Puritanism, probably think anyone going to a legitimate masseuse is an unsavory character, too. If there are some people who oppose Young's profession out of prudery, let them keep it to themselves.

Some neighbors may argue that too much traffic would be drawn into the neighborhood. That's hard to believe. Young works on two hour appointments and a car every two hours doesn't seem to be a strain on a neighborhood. If Young appeals the adverse decision to the planning commission, that body should grant the appeal.

—by Ron McNicoll

Did you ever notice how hard it is to open some food containers? They can be a real pain in the thumb; especially ones made of cardboard.

Directions printed on boxes informing you to push here, pull tab, or tear on dotted line are not complete.

They don't tell you it takes a medieval mace (does not come in a spray can) to bash in the box's opening.

The rest of the container may collapse but, by jings, that opening tries hard to remain intact. Dotted line, tab and part to push seem to be specially injected with pulverized steel, copper and/or iron.

If you ever complete the box opening ceremony, you can hardly ever get it closed again — at least not according to the manufacturer's directions.

Trying to insert tab A into slot B after opening is nigh to hopeless. Tab A was wiped out with the first shot in the war against Cardboard Container. Slot B succumbed shortly thereafter.

Then there's the semi-metal cans made from recycld sponges. They lure you with "lift ring and pull up tab" — or "turn key and twist."

You can lift ring but can-top stays put. Block and tackle are good for completing this task in order for you to reach the foodstuff therein.

The turn key and twist method works fairly well if you can keep the key on the straight and narrow. Usually, the metal strip that's to be twisted gets bunched up on one end of the key and you wind up opening your thumb.

Beverage container pull-rings often snap off leaving liquid inside resting peacefully. If you're part beaver you can overcome the dilemma.

But child-proof medicine bottles are the masterpieces of non-opendom. Rigor mortis can tap on your door and stroll in while you struggle to push, twist and turn to arrow.

I know manufacturers have done a lot of research and have tried their best to make container opening easy for us. I give them E for efficiency in most cases.

But now and again I bestow A for aggravation. —By Sue Vogelsanger

Guest comment

Young users

Editor, The Times:

Detective Dan Killeen responded quickly and simply, "Yes, there is," when asked whether there is a juvenile drug problem in Livermore. Although he explained, "For the last three to four months the trend has been away from the more dangerous drugs."

Detective Killeen, a tall, lean, young man spoke confidently and to the point as he sat in his office at the Livermore Police Department. He has served on the police force four years, two of those with the narcotics division.

The most dangerous drug used by the young in Livermore is phenylcyclidine (PCP), an animal tranquilizer commonly used by veterinarians, according to Killeen. He describes it as the "suburban drug of choice for persons between the ages of 15 and 20" and classifies it as potentially very psychologically addictive. Killeen attributes the availability of the easily manufactured PCP to clandestine manufacturers in Hayward and Oakland.

Detective Killeen's drug abuse training is based on what he calls, "nothing other than practical experience," although he attended advance courses through the attorney general's office in the Department of Justice.

Killeen said that the typical drug user is male, about 17 years, and from a middle to upper middle class family. "The chronic drug user tends to come from a home life with problems." Killeen continued, "Their attitude is apathetic snce there is not as much worry about getting caught, because they know they will get out of it."

The young drug users tend to be poor students and habitual truants and are most commonly found in the junior high school level, according to Killeen. "I find occasional use on the elementary school level but the increase in illegal drug use is in the junior high schools."

Killeen attributes original teenage involvement with illegal drugs to "peer pressure," with their major sources being other students and students who have recently graduated.

To deal with the existing lack of a formal education program, due to what Killeen terms "limited facilities, time and money" in the Livermore Valley Unified School District, he has developed an informative drug presentation for students on the sixth, seventh and eight grade levels. With the cooperation of the school district he explained he has often been a guest lecturer in junior high school health classes.

Killeen traces the overall drug problem to politicians and big business who have made themselves immune. "Someone's making a lot of money, is why the drug problem still exists. The problem exists at the top financing end." He believes that the problem will continue "until we devise a concerted effort to make it dangerous to become involved."

"The solutions to the drug problem are as varied as the individuals involved," explained Killeen. They include: long prison term for heroin dealers, drug counseling, and remedying the problems of both a lax attitude toward marijuana and ineffective law enforcement.

Detective Killeen relates drug use to the teenagers he talks to by comparing it to his revolver. "I tell them that I can take all but one bullet out. It's the same with drugs. You take a chance."

The week in retrospect

Fair is fair-game

Back in December the County Fair Association extended an invitation to Supervisor Valerie Raymond for a "get-acquainted" lunch and meeting.

Since that time County Supervisors have named Mrs. Raymond and Fred Cooper to a two-person study committee to look at Fair operations and the makeup of the Fair Association Board of Directors.

That invitation becomes a reality tomorrow when seven of the directors, Fair Secretary-Manager Lee Hall, Mrs. Raymond and her administrative assistant gather for lunch in the Valley followed by a meeting at the Fair administrative offices in Pleasanton.

It is likely this meeting will go beyond the bounds of a "briefing" as Mrs. Raymond and Cooper are quite aware of how the Fair Association operates, its bases of support, the status of employees (non-union), and composition of the Fair Board of Directors.

This is not to say the County Fair Association should be dismissed from any review or probe.

Quite the contrary.

Prior to Mrs. Raymond's election to the board, the relationship of the Supervisors to the County Fair Association seemed to be one of ocassional sniping and volleying in no particular order or fashion.

There was never any coordinated action to look into the operations of the Fair or the makeup of the board.

As a new supervisor whose district includes the Fairgrounds, it behooves Supervisor Raymond to get an in-depth view of not only the Fairgrounds operation but the methods by which directors are appointed, named, elected and/or reelected.

For that matter, John George, the other freshman supervisor and all incumbents should be in-person participants in any study or probe.

This is a matter that cannot be fully and fairly appraised by sitting in the lofty supervisorial chambers in Oakland and listenng to and reading the comments of otherboard members.

Any eventual actions by supervisors as they apply to the Fair Association can only be proper when each and every supervisor has come out here to Pleasanton, looked at the operation, and talked with the administration and board members.

We believe the overall Fair operation to be exemplary, particularly the planning for and operation of the annual County Fair.

ut there are question marks.

They do concern, as has been written and spoken of so often, some phases of the operation and the makeup of the board.

In no way do we intimate malfeasance on any one's part.

The management has appeared to act quite properly in its relations with employees, especially as they pertain to outside attempts to unionize them.

This situation, whereby the union keeps trying to bring in some 16 to 18 Fair employees, will apparently go on. From an original 12-5 vote 3½ years ago, the tally has narrowed all the way down to last summer when the vote came out an 8-8 standoff.

But the primary points of contention here are operations and board makeup.

Th past year has been a particularly difficult one for the Fair Association. Those accomplishing the study should be well aware of this, to get the complete picture.

As stated earlier, we believe the overall Fair Association operation is an exemplary one.

One could be vindictive and pick the board apart or look for discrepancies in operations. Hardly any public or quasi-public body is without some shortcomings.

But to accurately study, probe or review anything, one must be cognizant of the realm in which the body now exists.

Letters to the Times

Children cheated

Editor, The Times:

We're in a school district that has a long way to go. Published test results prove that...

Parents want better achievement ... It's their money being spent. Families coming in from other school districts in other states are appalled at the low elementary school level of instruction. They come from districts where expectations and standards are high...

Look at what is being taught in kindergarten. There is no strong phonics reading program to get these children into books, into writing their own stories, and excited about learning...

Instead of this, our children's skills, acquired in nursery school, are not being used in kindergarten. Children are doing the same thing all over again. A year wasted.

How long has it been since our school administrators, school board members, and curriculum coordinators visited the classroom unannounced to see what is going on? How much effort is being put forth to learn what skills nursery schools are teaching so that repetition can be avoided in kindergarten?

The state and the school district have not taken into account what our children have learned from educational television shows, such as Sesame Street. Children today are starting school with many more skills and learning experiences than they had 10 or 20 years ago. We have been cheated, and most important, our children have been cheated out of high quality education. Why? Because it takes a lot of hard work. To get this high quality education, a revamping of the elementary school curriculum (K-5 or 6) is needed. Start a strong phonics reading program in kindergarten and then upgrade the curriculum requirements for reading, mathematics, and spelling in the grades to follow.

"Been There"
Livermore

Refreshing

Editor, The Times:

Please accept my compliments and gratitude for your editorial of Jan. 19. It is refreshing and encouraging to see that you not only understand the workings of Revenue Sharing but are also taking the trouble to accurately describe it to your readers.

May I suggest that you also explain the general loss of power to put a limit on taxation and the loss of local control of how taxes are spent if property taxes are shifted to other forms such as sales and income tax, and if schools are financed out of state rather than local budgets.

Hugh W. Ellsaesser
Livermore

Hit the bricks

Editor, The Times:

Just consider the amount of money which could be earned while at the same time providing a public service by saving water! Charitable groups, high school bands, soccer clubs, boy scouts, churches, etc. could solicit a donation of $1 per toilet for bricks provided by the group and installed in a toilet tank to reduce water usage per flush.

Kirk Battleson
Pleasanton

Lighter Times

Fit to print

I read papers as much for amusement as enlightenment and the Jan. 28 issue of the New York Times did not disappoint me.

First there was Pope Paul VI's explanation of why the Catholic Church won't ordain women to the priesthood. There should be a natural resemblance between Christ and his ministers, said the pope.

"Christ was and remains a man," said the Holy Father. I am grateful for the knowledge that Christ has not had a sex change operation at anytime over the past 2,000 years.

The New York Times also tells me that the Chinese army put down a minor rebellion in the city of Paoting. The reporter, Fox Butterfield, has given up analyzing the wars between the various ideological camps in China. I know that because his story said the army rounded up weapons and "arrested bad people". And don't you naughty boys and girls try that again or we'll have to go back to calling you "left wing adventurists" and "Trotskyite splitters and wreckers".

Finally there was the story about a Northwestern University professor of electrical engineering who has written a book "proving" that the Nazis never killed any Jews in the World War II concentration camps.

It was all a myth created by the Zionists, he said. The author is Arthur Butz and I wonder if he is related to Earl Butz, the former Secretary of Agrigculture who was fired for his famous remark about black people.

I will know they are related if I pick up Arthur Butz's book and read that all the German Jews wanted was "loose uniforms, to be in tight with their guards, and have a warm place to concentrate."

— by Ron McNicoll

round the town

There is this person of my acquaintance who steadfastly refuses to attend "funerals, christenings and testimonial dinners."

He finds much the same fault with all three of these rites ... "loaded with lies, told mostly about people who have no chance to set the record straight."

I have been giving a great deal of thought to these words, most particularly when I am in attendance at one of the above rituals. Sure enough, the complaint set forth by my friend seems to hold up.

"The dear departed loved life to the very end ..." the minister intones. But I happen to know the poor devil was in terrible misery with the gout, had debts that only his life insurance policy could resolve, and left behind a bunch of relatives that could not much stand the old coot in life, but may have found reason to love him now ... because insurance wiped out the family debts.

"Do you, baby Anna Marie, solemnly promise to ..." And some godparent whom this three - month old chick wouldn't know from a wet diaper intones ..."I do so promise, on behalf of Anna Marie" on account of the three - month old - can't speak for herself.

What's even worse, the godparent hasn't upheld any of those same "promises" in years ... imbibes even more than the pastor ... and would be a terrible example for this new citizen to follow. Fortunately, the babe will grow up to ignore the godparent, and will never likely hear another word as long as she lives about the promises made on her behalf.

Testimonial dinners fall somewhere between funerals and christenings. Dull as the former, as questionable as the latter. The one distinct difference is that testimonials usually cost more.

"We have you down for six tickets for good old Harry's testimonial," the happy voice on the phone is saying, "the dinner is six bucks and there's a three dollar overcharge ... for the gift, of course."

Turns out the dinner is cold ham and cheese and "the gift of course" is a clock ... which allows the funny - funny emcee to make a big thing at the dinner about "good old Harry's failure to get ANYWHERE on time! Har har." Followed by great guffaws from the audience. Followed by deep frown on good old Harry's face, he having already counted the house and — figuring 300 guests each coughing up $3 gift surcharge — were worth at least a trip to Hawaii for Harry and the Missus.

The problem, I have concluded, is that there are no guidelines set down for funerals or testimonials or even christenings. We could correct at least two of those shortcomings by listing right now the "Rules to be followed religiously at funeral (or testimonial) for —— — " and here you sign your name.

As for my own departure, be it from this post or from this earth, I would like to set forth the following:

1. Nothing is to be said at the rites that would not otherwise be addressed to the honoree during the normal course of his life; (This may result in some rather strong language, judging by "letters to the editor" and such, so discretion is advised among those participating.)

2. Recognizing that deadlines have always been a part of honoree's life, all oration shall be timed so as to give participants ample time for A. a much - needed libation; B. the six o'clock news; or C. (since most of these things are on weeekends) time for nine holes of golf;

3. Attendance shall be denied those who — A. Owe honoree money, garden tools or an apology; B. Had some part in honoree's departure; C. Have something better to do with their time.

I have additional thoughts on those who shall **not** be allowed to speak at my funeral/testimonial, but to reveal that list here would only cause a great deal of unhappiness, and cost us a big bunch of subscribers.

One final request. Do NOT include flowers at my funeral or a time piece at my testimonial. The former have always given me intolerable fits of sneezing (a condition I fully expect to carry into the next world) and a clock is something I got along without, thank you, throughout my productive years, and I sure - as - hell don't want to start any new bad habits once I'm through this vale of editorialized tears.

For those who choose to skip both my testimonial dinner and my funeral, may I take this opportunity to commend you for your good sense. If we have enjoyed each other's company through years of good living, I see no reason to slobber tears or booze all over those beautiful memories.

Dr. Lamb

DEAR DR. LAMB — About two years ago our son, age 22, noticed his pulse was 36. His doctor put him in the hospital. He was placed on a heart monitor. His pulse did go down to 28 when asleep. He was transferred to a larger hospital and a temporary pacemaker was inserted for a few days.

They diagnosed his condition as complete heart block. Because of his age they advised him to get light work and hold off on a pacemaker. I should mention he is not in favor of a pacemaker. His pulse is around 46 now. He is holding down a full-time job, also doing some sports.

What are his chances of going through life without a pacemaker?

DEAR READER — Complete heart block in young people is rare but it does occur. The complete form of block means that the bottom part of the heart, the pumping chambers, must run on their own, independent of the faster beating rate of the top two chambers of the heart. It can occur as a birth defect or it can occur after an inflammation of the heart, as a complication of an infectious illness.

Your letter indicates that your son has no symptoms at all except he noted his slow pulse. It reminds me of a very good jet pilot I saw as a result of a routine electrocardiogram who also had complete heart block. We exercised him to full capacity and he was able to increase his heart rate to nearly 80 beats per minute and do a lot of exertion without any difficulty.

I repeat this story to you to emphasize that your son may not be greatly handicapped. The importance of his slow heart rate depends upon whether he has any fainting episodes or has any lack of exercise tolerance. It might be advisable to have a stress test done under monitored conditions to see how his heart behaves during exercise.

Fainting episodes can occur in people with complete heart block because the heart isn't beating fast enough to pump enough blood to the brain. Fainting, however, is caused by many things — some important, some not. I am sending you The Health Letter number 9-2, Fainting (Syncope). Others who want information on fainting and what it means can send 50 cents for it. Send a long, stamped, self-addressed envelope for mailing. Write to me in care of this newspaper, P.O. Box 326, San Antonio, TX 78292.

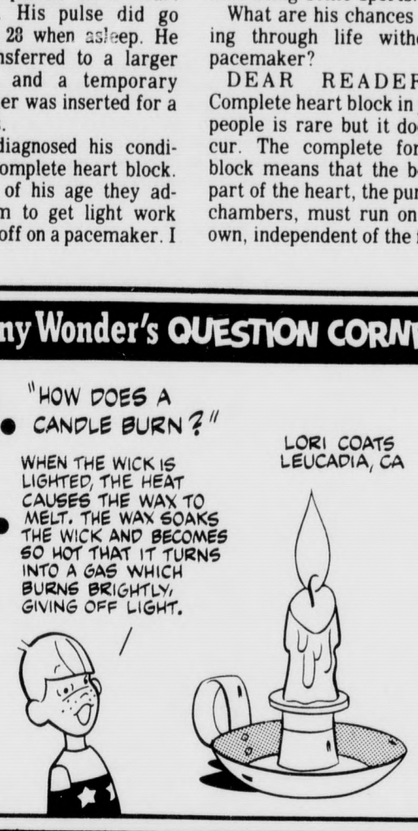
The slow rate alone will not hurt him. Roger Bannister had a rate in the middle 70s before he trained for the four-minute mile and a resting rate in the upper 30s when trained.

Johnny Wonder's QUESTION CORNER

Q. "HOW DOES A CANDLE BURN?"

LORI COATS
LEUCADIA, CA

A. WHEN THE WICK IS LIGHTED, THE HEAT CAUSES THE WAX TO MELT. THE WAX SOAKS THE WICK AND BECOMES SO HOT THAT IT TURNS INTO A GAS WHICH BURNS BRIGHTLY, GIVING OFF LIGHT.



Making a wish before blowing out candles on a birthday cake is a popular American custom. A candle is a stick of wax with a wick, or string, running through its center.

The wick is a very important part of a candle. When the wick is lighted, the heat of the burning wick melts some of the wax in the candle.

The melted wax soaks up the wick. When it reaches the flame, it gets so hot that it turns to a gas which burns brightly, giving off light.

When you blow out a candle, the force of the air from your breath pushes the heat of the flame away from the candle. The temperature of the candle wick cools until it is too low for the candle to burn.

No one knows who invented the candle. But for a long, long time candles were the best way people had of lighting their houses after dark.

Today candles are used in religious services, on special holidays, and for decoration.

"The boots bit off my shoes again."

astrograph

For Sunday, Feb. 6, 1977

ARIES (March 21-April 19) While others dream of relaxing today, your mind will be on business matters. You'll reap the rewards of your concentration.

TAURUS (April 20-May 20) You have a marvelous knack today for recognizing opportunity. You can even gauge the extent of the profit from a particular enterprise.

GEMINI (May 21-June 20) Don't be nervous today regarding the outcome of events. You're a shade or two luckier than you realize.

CANCER (June 21-July 22) Decisions you make today are destined to be both wise and practical. You look at issues from both sides. You'll pick the winner.

LEO (July 23-Aug. 22) Your chances for gain are extremely promising again today, particularly where you can use your expertise in plotting your moves.

VIRGO (Aug. 23-Sept. 22) Where often you think about doing nice things for others, today you'll follow through. The sentiment is enhanced because you have no selfish motives.

LIBRA (Sept. 23-Oct. 23) You're extraordinarily effective today helping others by working behind the scenes. It's better if your moves don't become evident.

SCORPIO (Oct. 24-Nov. 22) The impression you make today is favorable — and lasting. When you're discussed in absentia later, it will be in glowing terms.

SAGITTARIUS (Nov. 23-Dec. 21) Even though it's not a business day, don't set aside ideas you have to improve your financial base. Call others who could be on your wavelength.

CAPRICORN (Dec. 22-Jan. 19) A few encouraging words from you when deserved will work wonders. If someone has earned a compliment, lay it on them with gusto.

AQUARIUS (Jan. 20-Feb. 19) You can score in joint endeavors today, providing you let others take the lead. It's not that your ideas aren't good, it's just that others' are better.

PISCES (Feb. 20-March 20) Today your judgment is especially keen. You know all the right things to say to evoke a positive response.

Your Birthday

Feb. 6, 1977

You will fare well this coming year if you pursue activities that benefit all the family. You cannot think in singular terms if you want to achieve best results.

(Are you an Aquarius? Bernice Osol has written a special Astro-Graph Letter for you. For your copy send 50 cents and a self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, New York, N.Y. 10019. Be sure to ask for Aquarius Volume 4.)

Pass	4 ♠	Pass	6 ♠
Pass	Pass	Pass	

Opening lead — 3 ♠

By Oswald & James Jacoby

Today's North-South cards were sent to us by a lady from Wisconsin who said she opened three notrump and played it there.

This is where she should play the hand after that opening bid. However, the hand is just the least bit strong for a three-notrump opening and actually the North-South cards can produce six notrump with a 3-3 diamond break and a club lead or successful club finesse. But six spades is a fair one and we have made up a hand for that contract.

South opens two spades on his four-card suit. North jumps to four spades to show good trump support and no first or second-round controls and South goes to six.

South draws trumps with three leads and plays his ace of diamonds. West drops the jack and South stops to think. The result of the thought is that South plays out the high hearts, leads a diamond from dummy and ducks. West is in with the queen and forced to lead a club up the ace-queen.

Sort of an inspired play, but since we made up the East and West hands, we can be expected to find the winning play.

Ask the Jacobys

Under the new rules about score corrections, a score can be only half corrected. Thus, if you as East and West sign a slip showing North plus 450 and later on you find that North should only be plus 420, your score remains as minus 450; the North score is reduced to 420. There is a reason for this complication. Frankly, we don't like it, but it is now the law.

Of course, you can always ask what the final contract is when it is your turn to play.

Depression To Be Topic

Co - author of "The Book of Hope: How Women Can Overcome Depression," Victoria Pellegrino, talks to host Ian Zellick on "All The People" Sunday night at 11 p.m. on Channel 2.

Many women believe they are failures because in their view they can't fulfill the high standards society, and they themselves, have set — to be all things to all people, Pellegrino says.

Sometime in their lives, eight out of every 10 women suffer from depression. The book gives guidelines to "unlearn" depression.

Zellick also interviews Dr. Shirley Sun, Executive Director of the Chinese Culture Foundation in San Francisco.

SR overcomes injuries, tops United

Despite being hampered by injuries and a size disadvantage the San Ramon Superiors took a decisive 3-1 decision over Pleasanton United in the finals of the first annual Commissioner's Cup Girls' Soccer Tournament Under - 19 division at Robertson Park in Livermore yesterday.

The Superiors were missing two players and only had 12 athletes suited up for the game but it didn't seem to hamper their play.

In other age - division contests Pleasanton United shutout Dublin United 3-0 in the under - 10 finals, Pleasanton Select edged the Livermore Rockets 3-2 in the under - 16 bracket, Pleasanton United topped the Dublin Shillelaghs 2-1 in under - 12 competition and Pleasanton United nipped the Fremont Yellowjackets 1-0 in the under - 14 contest.

The Superiors grabbed a 1-0 lead about 10 minutes into the match when Barbara Huddelston fired in a six - yarder from right in front of the goal.

About 25 minutes later the Superiors scored again when Patrica Dulick, who had a brillant day, took a cross - feed from Cindy Miller and banged one in from four yards out.

That ended the first half scoring.

In the first part of the second half it appeared the Superiors would lose control of the game as Pleasanon United began to assert itself offensively.

The Pleasanton team fired off four shots within a minute at the Superior goal but came up with a goose egg for their efforts in that time.

However, they came back quickly when Debbie Oxsen jammed in a five - yard direct kick with about 20 minutes left in the match.

After that the Superiors got their second wind.

Some strong defensive efforts by Christine Sandy and Grace Autio sparked the San Ramon club. Those defensive efforts gave the Superior offense time to get going again and the result was a outstanding effort by Sandy Klinger.

With about 10 minutes left Klinger took a feed from Dulick near the midfield stripe and dribbled her way through three Pleasanton defenders before firing the shot in from six yards out.

SR coach Geri Golisch praised her team's play after the contest was over.

"Our players did a fine all - around job, particuarly today," she said. "Our two injuries didn't help matters."

In the under - 16 contest a balanced attack was the key for Pleasanton as three different girls scored the United goals.

United took a 2-1 lead in the first half on goals by Sheri Brittain and Kim Fruzzetti. Gretchen Heinbaugh and Ann Peterson got the assists.

However, Livermore came back in the latter stages of the half to score on a goal by Patty Hannon.

Pleasanton secured the win in the second half on a three - yard shot by Jayne Kuhns. who is also one of Amador Valley High School's best girl basketball players.

Kim Iverson and Julie Fernandez were outstanding in goal for the winners. Lori Gilliam, a halfback - fullback, played outstanding defense for Pleasanton.

Lisa Thomas scored the only goal of the game in Pleasanton United's under - 14 win over Fremont. The Pleasanton team played outstanding team defense.

Taynya Biletnikoff scored two goals to spark Pleasanton United past Dublin United in the under - 10 match.

Aaron O'Brien scored the first goal for Pleasanton on a five - yarder off an assist from Jennifer Hanhy.

Taynya scored her goals late in the first half and with about five minutes remaining in the contest.

Pleasanton United broke a scoreless tie in the under - 12 match with two goals in the second half. T. Hirst broke the ice for Pleasanton with a goal early in the period. Each team scored one more goal in the contest.

Warriors rout Bucks

Associated Press

OAKLAND — Forward Rick Barry scored 23 points in the first half and 29 in all to lead the Golden State Warriors to a 138-116 National Basketball Association victory over the Milwaukee Bucks Saturday night.

Barry's first - half explosion highlighted a 59 per cent shooting performance by the Warriors, who led 69-55 at the intermission.

Milwaukee cut the lead to 12 points early in the third quarter, but rookies Robert Parish and Sonny Parker went on a scoring surge to lead the Warriors to their highest point total of the season.

Parish connected on his first eight field goal attempts and had 19 points in all. Parker scored all 13 of his points in the second half.

Guard Charles Dudley had a season high of 13 assists for the Warriors.

Bob Dandridge was high for Milwaukee with 25 points, 19 of them in the first half.

Friday night the Warriors held off a late Phoenix rally to top the Suns 109-106 in Phoenix.

Rookie center Robert Parish sank two critical free throws with 11 seconds left to ice the win for Golden State. Barry led the Warriors with 27 points. Charles Johnson followed with 20. Center Alvin Adams led the Suns with 29 markers.

Cantalini third in Hayward tourney

HAYWARD — Chris Cantalini gained a stroke, but he lost the war.

The young Dublin golfer, behind by three heading into yesterday's third and final round of the Hayward City Championships, reeled off his third consecutive 74 to remain in third place.

His total of 222 was two shots behind winner Ashley Smith, whose opening day 71 carried him to the top and one stroke behind Danville's Jim McMurtrey.

The early leaders tumbled yesterday. First round co-leader Ron Marks had a 77 yesterday to wind up in 12th at 227 while Don James, whose 70 had kept him even with Marks on the first day, hacked his way around an 85 to finish in 30th place.

Charles Peoples, who'd led after 36 holes, fell off to an 80 to wind up seventh.

Another Danville golfer made it to the final round. Steve Bjerke did not particuarly distinguish himself as his 81 gave him a tournament total of 235 and a tie for 34th place.

In the second flight Terry Kintz maintained his lead and won with a net score of 211. Ralph VonvDerhaar won the third flight in a sudden - death playoff with Harold Raggio after both had completed 54 holes with net 214's.

The tournament, played at Skywest Golf Course, was the first Northern California Golf Association point - standing event of the season. The next will come later this month at the San Francisco City tournament.

AV still first

Granada nips Falcons, 2-1

Compiled by Times staff

Failing to turn the surprising trick two times in a row, Foothill High's soccer team lost to Granada Friday, 2-1, as the Mats gained revenge for an earlier season loss to the Falcons in the Pleasanton school's final East Bay Athletic League tilt for 1977.

But for Granada, they've only just begun. It all boils down to Tuesday's make-up game with Amador Valley at Granada for the deciding game of the EBAL championship. The Dons lead the Matadors by a single point.

In other EBAL soccer matches Friday Amador Valley got ready for the Granada match with a 6-0 shutout of California, Dublin dropped winless San Ramon 4-0 in Danville and Livermore downed Monte Vista 2-0.

It was the final game of the first half when Foothill began their studded drive for the title with an upset 3-1 win over Granada. "We didn't practice any over Christmas, and that was our first game," remembered Granada coach Bill Coupe after yesterday's win. "Today, I think everyone played well."

The Falcons, who finished the year at 8-6 following four consecutive defeats, still had a happy coach Keith Sweet after the game. "We're ready to eat some cake and collect the uniforms," he joked."

Sweet added, "I'm really disappointed that Dave Albert didn't get a chance for some recognition. He's played really well at fullback all year."

The coach looked on the bright side of things, stating, "When we came into this season, I was looking for us to win seven games, but we did even better."

Granada's ace striker Manzar Iqbal started the scoring with a 15 yard break goal off a pass from Kevin Burke 13 minutes into the game. The Falcons tied it moments later on Bruno Dulaurier's ground shot that slid past Granada goalie Gary Lamb, Dave Laudenbach picking up an assist on the play.

The winning goal came just one minute from the end of the half when Burke chipped a direct kick toward the Foothill goal. Rob Jamison then headed the ball past goalie Dave Konecny and the ball found net without even touching the ground.

Foothill seniors Cliff Woodward, Jeff Ghidossi, Larry Lorenz and Kevin Hart, all four-year starters, were pointed out for their play by Sweet. Other Falcon graduates include Brian Carouthers, David Pletcher, Delaurier and Paul Schaut.

	Gra	Foot

Dublin	3 1 — 4	
San Ramon	0 0 — 0	

D — Mangini, 10 yard direct kick; **D** — Mangini, 10 yards, assist from Schlicker; **D** — Dick, 12 yards, Kline assist.

D — Schlicker, 10 yards, Mangini assist.

Individual goalie saves, Austad, SR, 8; Allison, D, 1.

	CAL	AV
Shots on goal	6	22
Goalie saves	10	5
Corner kicks	0	3
California	0 0 — 0	
Amador Valley	5 1 — 6	

Individual saves, Daugherty, C, 10; Castillo, AV, 2; Perez, AV, 3.

Amador kept first place by dominating California.

The Dons streaked to a 5-0 halftime lead. Kevin Crow opened the scoring for AV with a five-yard direct kick eight minutes into the game.

Ten minutes later Keith Clay picked a shot that had rebounded off the goal's post and rifled it in.

EBAL Standings

	W	L	T	Pts	GS	GA
Amador V.	10	2	1	21	40	12
Granada	9	2	2	20	36	18

Monte V.	5	9	0	10	21	29
California	4	9	1	9	22	28
San Ramon	0	14	0	0	2	65

Steve Blalock made it 3-0 on a corner kick. Pat Cohan added the fourth goal from three yards out at the 22-minute mark on a Blalock assist. Joe Correia scored the first of his two goals two minutes later while he booted the ball between two defenders.

Correia scored the final goal in the second half, booting a shot in that had ricocheted off a thick wall of traffic near the Grizzlie goal.

Amador fired 22 shots at the Cal goal and the Grizzlies managed but three. Amador is now 10-2-1 and California finished the season with a 4-9-1 mark.

Charlie Bockover and Robert Turpin each scored for Livermore in victory.

The win gave the Pokes a season - ending 9-3-2 mark. They can tie Granada for second if Amador beats the Mats.

Livermore fired 21 shots on goal and the Mustangs had four.

Twin brothers Peter and Paul Mangini each scored first - half goals for Dublin in its win over SR.

SJ keglers top Dublin

The Dublin Bowl Match Club dropped its second meet of the season last week, 10-5, to host San Jose at the Alma Bowl. The south bay team also took total series, 4-1.

The team of Houston Knox, Mary Gerow, Bill Nelson and Harvey Hiner were a bright spot for the losers.

Harvest Park in cage finals

St. Bonaventure's of Concord and Harvest Park of Pleasanton meet for the Tom Hart Basketball Tournament championship at 2:30 today at Camp Parks.

The tournament, which is made up of several junior high teams, saw St. Bonaventure's advance to the finals by crushing Pleasanton 49-30 yesterday.

Harvest Park earned its way into the finale by topping Knightsen 31-22.

Jim Wilson canned 17 pints to lead St. Bonaventures' past Pleasanton. The winners leaped out to a 33-14 halftime advantage and cruised in from there.

Brad Pembroke led Harvest Park with 11 points and Barry Mori added eight. Lenny Cross paced Knightsen with eight points.

In losers' bracket games yesterday Wells of Dublin edged Earl Warren 40-38 behind a well - balanced attack and Rancho Arroyo of Hayward dumped Tracy 40-32.

In other games today Rancho Arroyo plays Wells at 11:30 for the consolation crown and Pleasanton tangles with Knightsen at 1 for third place.

Pleasanton gets bulk of autocross races

Pleasanton will be the autocross capital of the Bay Area, according to the 1977 schedule released this week by the San Francisco Region of the Sports Car Club of America.

The Alameda County Fairgrounds parking lot will be the site of eight of the 15 events on the 1977 region schedule, including two tentative major events and the annual Rubber Chicken Memorial Endurocross.

The NorPac run-offs for the National Run-offs at Greater Southwest Airport in Dallas, Tex., have been penciled in at Pleasanton on Aug. 27-28 as has the proposed First Annual Western Open Autocross Championship, Oct. 22-23.

Four qualifying events and a slush run are also on tap for the local lot. SCCA membership is required for all events, except a May 1 driver's school at Sacramento Raceway, and information may be obtained from local motor sports columnist John Kelly at 846-7728.

Information on the auto-cross school can be had by calling (707) 938-8461.

1977 SAN FRANCISCO REGION AUTOCROSS SCHEDULE

Feb. 13 — Alameda County Fairgrounds; March 13 — Siliconix parking lot, Santa Clara; March 27 — Bay Meadows Race Track, San Mateo; April 24 — Alameda County Fairgrounds; May 22 — Alameda County Fairgounds; May 29 — Bay Meadows Race Track; June 19 Bay Meadows Race Track; July 10 — Bay Meadows Race Track; July 24 Solano Community College, Suisun City; Aug. 14 — Alameda County Fairgrounds (Qualifying events for NorPac).

Aug. 27-28 — Alameda County Fairgrounds reserved for NorPac Run-offs; Sept. 18 — Solano Community College (slush race); Oct. 1-2 — National run-offs, Greater Southwest Airport, Dallas, Tex.; Oct. 22-23 — Alameda County Fairgrounds, two-day event planned as First Annual Western Open Autocross Championship; Nov. 6 — Alameda County Fairgrounds (slush event); Dec. 4 — Alameda County Fairgrounds, Annual Rubber Chicken Memorial Enduracross (limited to 60 entries).

Poke rally tops Mats

By Brian Martin

Proving again that a winning formula should never be broken up, Livermore High came from 12 points down late in the third quarter to pull a 58-56 East Bay Athletic League basketball shocker on Granada Friday Evening on the Cowboy court.

'Poke coach John Jones did not substitute a single player during the whole game, letting his starting five of Tim Jenkins, Mark McCreary, Brian Schweiger, Johnny Farfan and Dick Patterson play the entire 32 minutes.

Looking up from a 46-34 deficit with :55 to go in quarter three, the Cowboys pulled off eight straight points before the period's end on two Jenkins bombs and Farfan's bucket and pair of free throws.

Jenkins picked up where he left off in the final stanza, hitting on a jumper to make it 46-44. From that point on, the teams played nearly even until the final hectic minutes.

With the score tied 52-52, Granada's Joey Wujek canned a bucket with 4:40 to go, but Jenkins fired in another missile to tie it again. After Wujek put the Mats back in front with a drive to the hoop, the 'Pokes' Dick Patterson came back down and meshed two free throws to even matters once more with 2:51 left.

Both teams then traded turnovers and missed shots, but the Cowboys were left with the advantage after McCreary grabbed a jump ball with :58 to go and the score still tied.

Livermore worked the ball around and finally dished off to McCreary at the free throw line, who lated - back and pumped in a swisher that won the game for the hosts with :25 to go. Granada failed on three shots in the final seconds to in trying to force an overtime.

"They just played a super game, they just played super," laughed Jones in the delirious locker room. "I don't know what to say."

For a minute it looked like the winners were falling into their foul trap. Jenkins, McCreary, Schweiger and Farfan all had four fouls by game's end. Ironically, it was Livermore who blew a 12 - point third quarter lead in their loss to Granada last time around.

The Matadors simply could not break Livermore's switching press, so effective it produced six break - in lay - ins throughout the contest.

Jenkins finished the evening with 25 points, while Wujek led the Mats with 18. The game did see the blossoming of junior guard Steve Robison for Granada, who scored 16 points, nearly all of them in clutch situations.

Livermore came out strong, taking leads of 11-4 and 17-8 before the Mats started figuring the press. Granada finally went ahead, 24-22, on a Wujek lay - in with 1:48 to go in the first half. Jenkins 22 - foot shot at the halftime buzzer gave the Cowboys a 28-27 lead.

Granada scored six quick buckets to start the final half 33-28. After trading buckets with the hosts, the Mats pulled ahead 46-34 with 1:22 left in the third period, helped greatly by reserve guard Kim Curtis' pair of 15 - foot jumpers.

GRANADA (56)
Wujek, 7 4-10 18; Robison, 6 2-4 14; Lambert, 3 1-1 7; Paul, 4 0-0 8; Evert, 2 0-0 4; Curtis, 2 0-0 4; Waldera, 0 0-1 1; Schwab, 0 0-0 0; TOTALS — 24 8-17 56.

Pokes' John Farfan (22) shoots over Steve Robinson of Granada

Race tightens

MV stuns Dons

By Gary Brown

Now it's a race to the wire in the East Bay Athletic League basketball race.

Monte Vista High School made sure of that by stunning defending champion Amador Valley 78-69 Friday night in the losers' gym.

As a result Amador is tied for first with Livermore, a 58-56 winner over Granada; both teams having 7-2 records. Monte Vista, Granada and San Ramon are all a game back at 6-3.

EBAL STANDINGS

	W	L	GB
Amador Valley	7	2	—
Livermore	7	2	—
Granada	6	3	1
Monte Vista	6	3	1
San Ramon	6	3	1
Foothill	2	7	5
Dublin	1	8	6
California	1	8	6

The 'Stangs threw the race into a donnybrook by using an effective zone defense which prevented the Dons from scoring inside until the fourth quarter, when Monte Vista had already built up a huge lead.

"Yes, I'd have to say our zone defense was the key factor," admitted 'Stang coach Dick Jones. "We knew we couldn't go man - on - man with them. I don't think anybody in this league can. So I just told our guys to go tight in the middle so they'd have to shoot from the outside. They couldn't keep shooting at a 60-70 percent clip from there."

Monte Vista built up a 34-29 halftime advantage on the good inside work of center Dave Cowan and some great playmaking by guard Kevin Jones, who set up the 6-4 pivotman and Mike Tierney with some excellent feeds.

Amador never led in the first half but tied the game twice before the Mustangs went on an 8-3 blitz in the last two minutes of the second period.

The third quarter sealed the Dons' fate as the victors outscored them 23-9. Cowan and Jones each tallied six points in the period and Bob Devincenzi added five.

The 'Stangs' largest lead was 59-38 in the opening minute of the fourth quarter. From then on the Dons gradually trimmed the margin down as Sam Jorgensen, Rick Howard and John Sevo began finding the range. Jorgensen and Howard worked inside and forced the 'Stangs into fouling them. Jorgensen canned six charity shots in the final period.

Jones led all scorers with 21 markers.

MONTE VISTA (78)
Jones 6 9-11, 21; Cowan 9 0-1, 18; Tierney 6 3-3, 15; Devincenzi 4 6-8, 14; Krey 3 2-2, 8; Jayko 1 0-1, 2; TOTALS 29 20-26, 78.

Gaels win first, SR romps

Compiled by Times staff

Dublin High School's basketball team won its first East Bay Athletic League game of the season with a convicing 58-44 win over Foothill Friday night in Pleasanton.

In another EBAL contest San Ramon stayed in the EBAL title race with a 66-48 victory over California in the Wolves' gym.

The Gaels used an effective fast break in the second half en route to the victory.

Trailing 23-19 at halftime Dublin went to work in the third period and ran off 10 straight points to take a 33-27 advantage with three minutes left in the quarter.

Foothill had trouble getting by the Gaels' zone defense and turned the ball over four times.

Dublin entered the final period, leading 39-32 but Foothill made a slight spurt at them before Jim Boulware and Lane Boespflug each fired in two buckets to counter the Falcon rally.

The Gaels cashed in at the free throw line in the final period, making 11 of 14. Foothill canned two of four charity attempts.

Dublin, now 1-8, was led by Boulware with 19 points. Chuck Gangnuss added 12 and Jeff Barnes 11 for the winners.

San Ramon, now 6-3, jumped off to a 18-4 first quarter lead before going up as much as 20 points midway through the fourth quarter.

Phil Wiltz, recipent of last weeks' Contra Costa Flecto award, led all scorers with 23 points, including 11 in the third period. Wiltz scored the first six points of that quarter to give the hosts a comfortable 36-24 advantage with 6:17 showing.

Teammate Brad Hallock added 16 points, 10 of which were free throws.

The Wolves broke the Grizzlies' press and worked a 1-3-1 zone offense to near perfection.

San Ramon increased its lead to 61-41 in the final period when Mike Campbell sank a pair of free throws.

Wolf coach Russ Critchfield praised the 1-3-1 offense.

"The 1-3-1 gives more freedom to Wiltz and Hallock inside," he explained.

Price includes all present floor coverings, options, extras and also includes all built-ins, wallpaper, draperies, landscaping, present fencing and sprinkler system. The Woodglen, with all of the above features and fixtures, is priced at $81,950.

Plan II is a four bedroom home with two baths. and is called the Ridgeview. This home, like the Woodglen, is a single story home, and it will include all of the items described above. The price of the Ridgeview is $85,950.

Excellent conventional financing is available for qualified buyers of both of these model homes.

"The location of Green Ridge Hills has earned it a reputation for scenic beauty as well as convenience," said Cheney.

Located on a prime parcel of land in Crow Canyon, the area offers panoramic views of the surrounding countryside as well as an opportunity to observe wildlife in its natural rural home. Residents also enjoy smog free living all year long.

Such a combination is rarely available in a location that affords easy access to so many urban amenities, according to Cheney.

He noted also that the community's close proximity to San Francisco and Oakland makes the area highly desirable while the rural environment offers three regional parks and lakes nearby, as well as facilities for horseback riding, golf, tennis, fishing, swimming and biking.

To visit Green Ridge Hills from the Nimitz Freeway (Hwy. 17), take the Castro Valley exit (Hwy. 238) east to Crow Canyon Road exit. Turn left on Crow Canyon Road and continue north to Green Ridge Road, then left on Green Ridge to the sales office at the top of the hill.

Rare award for manager

The keys to this Continental Mark V are being presented to Joe Jones, sales manager of Century 21 Classic Realty Inc. by grateful company owners, Jim Clark and Don Van Ness. This custom designed Bill Blass model was awarded to Jones in appreciation of his design and implementation of a totally new selling concept adopted by Classic Realty.

The new program started only weeks ago and the system isn't in full operation as yet, but the return has been phenomenal and the return on sales activity has increased by 400 percent.

"This is the first award of a luxury car presented, but it certainly will not be the last," added Van Ness. " We plan for this automobile to set a pattern for future awards to top producing sales agents under our newly incorporated sales system As a matter of fact, we have already completed Phase one, which is the actual ordering of more automobiles."

"Most important," clark addd, " our new program gives four times the service to our customers and the response already indicates a need to expand our organization some 30 percent with select, dedicated agents."

Community club class at Chabot

Chabot College will offer a six-week course focusing on techniques for developing community organizations at the grassroots level.

The course begins tomorrow and will continue through March 21 from 9 to 9:50 p.m. at the Alameda County Education Center, 685 A St., Hayward.

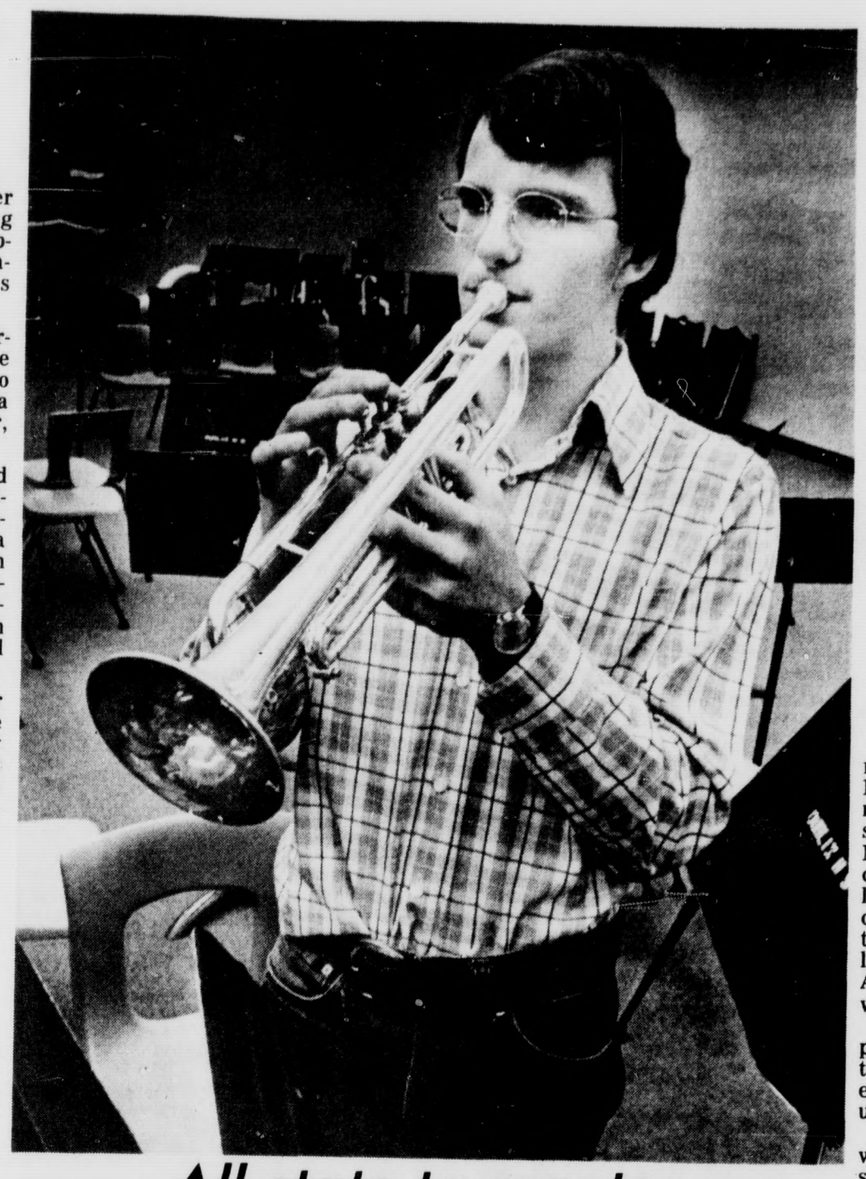
"This class is designed for those who are interested in learning how the process of developing a community organization works," said Robert Coleman, instructor. "Emphasis will be placed on developing practical skills," he added.

No pre-registration or fees are necessary for the course. Registration may be done at the time of the first class meeting. For information please telephone 782-3000, ext. 282.

Vocational ed activities set at Livermore

Livermore schools will spotlight Vocational Education Week by inviting visitors to the shops, typing labs, agricultural facilities and home economics rooms from 9 a.m. to 3 p.m., Monday through Thursday of this week.

Displays and demonstrations have also been scheduled. District vocational education coordinator Fred Sherwyn says Livermore's program has grown from some 1,800 students four years ago to more than 4,500 enrolled today.



All-state trumpeter

Andy DeGiovanni of Dublin High School has been named a member of the California Band Director's Association All-State Band. He will be going to Redlands Feb. 17-20 to the state convention where the honor band will perform. Andy is a member of the Dublin High Gael marching and symphonic bands. This is the fourth consecutive year a Dublin High musician has earned honor band status. Harry Sweet is director of the music program at the school.

Cal High math class

Students judge retailers

(This article expands on one run Friday, reviewing a 38-page consumer report compiled by the consumer math class of Jim Spurlin at California High School in San Ramon)

Where are the best "buys" in groceries, clothing, audio and automobile accessories?

The students of Jim Spurlin's consumer math class at Cal High have the answers — and a multitude of supporting data to back it up.

"We have compiled the material as a study on the differences of every day items, products and services which are purchased by the consumer," state the students at the outset.

"We hope that with the information that we have obtained, you, as the consumer, will receive some insight on what you are getting for the money that you are paying. Please be aware that these prices were taken from the local markets of trade in the San Ramon Valley in November, 1976. Therefore, prices may vary according to the location."

The report is sufficiently detailed and verified that residents in the Valley might want to take Spurlin and his class up on the tentative plan to put the report out for public consumption.

Further information on the report can be obtained by contacting Spurlin or math department chairman Bob Giannini at California High.

One of the more interesting sections of this consumer report concerns fast food restaurants. As noted in the previous article, students listed the restaurants they contacted and the products they checked.

For instance, four pizza restaurants were checked on the following items: Pizza price, total weight, dough weight, sauce weight, cheese weight, perimeter of the pizza, price-to-go, beverage price, beverage weight, amount of ice crushed, and best buy rating.

Pizza Hut, at 7256 Amador Valley Blvd. in Dublin, received an "excellent" rating from the student "Ralph Naders" while Round Table, at 7265 Amador Valley Blvd.in Dublin, was rated "very good."

El Taco, at 6830 Village Parkway in Dublin, received an "excellent" rating of the three firms checked that sell tacos.

Manny's Delicatessen, 7435 Amador Valley Blvd. in Dublin, was accorded an "excellent" after a check of prices, total weight of sandwich, weight of ingredients and meat, beverage price, beverage weight, and amount of ice.

Casper's Hot Dogs, at 6998 Village Parkway in Dublin, got the consumer group's "excellent" rating after a check of prices, weights, ingredients and makeup of beverage.

The student committee had this to say about the sandwich outlets checked (Manny's, Emilio's and Purcell's), "All of them were willing to cooperate fully and they all had nice people working and quick service. We witnessed all the weighing that was done."

The six students checking grocery stores also had some interesting comments to make on prices and service.

This committee was composed of Arda Robles, Jeff Silva, Michelle Stuhr, Kevin Bringham, Marie Scoma, and Vickie Bringham.

Stores checked were Albertson's, Alpha Beta, Bill's Drugs, Flair Markets in Danville, Fry's, Lucky's, Safeway, Seven-Eleven in San Ramon, and TG&Y. All are in Dublin unless indicated.

Pricing and quality was checked in meats, milk, butter and margarines, cheese, and candy.

Committee members found store clerks and management generally cooperative though they uncovered some defensive reactions or a reluctance to assist the students in compiling their survey.

More details of the grocery pricing as well as what students found in checking clothing, audio and automobile accessory stores will run in following issues.

— by Al Fischer

SRV trustees eye parents' survey

DANVILLE — San Ramon Valley Unified School District trustees Monday night will receive the results of a parent survey on Neil Amrstrong School reconstruction as part of a lengthy agenda that includes a discussion of future school finance legislation by 10th District Assemblyman Dan Boatwright.

Trustees convene at 7:30 p.m. in the Education Center, 699 Old Orchard Dr. An executive session is scheduled to begin at 5:30 p.m.

Assemblyman Boatwright will discuss future school finance legislation and matters related specifically to education. He will be open to any questions from the public and the board regarding education today.

The Monday night meeting will also include presentation of the certificated employes' initial contract proposal by the San Ramon Valley Education Association (SRVEA), the exclusive bargaining agent for the teaching staff in the district. Receipt of the contract by the board will not include discussion of the which contract will be made at the next board meeting Feb. 22.

Copies of the teacher's proposal will be available to the public at the district education center. The community is encouraged to attend these meetings in order to be better informed during the negotiation period, according to the assistant superintendent of personnel, William Crozier.

The letter from Neil Armstrong School PTA president Midge Enke and Joann Bullington, reconstruction committee chairwoman, presents the results of a survey after the board had directed the administration to "look into the possibility of making some changes in the reconstruction of Armstrong ... and to establish meeting dates with parents and staff of the school to review some of their ideas and concerns."

An Armstrong PTA letter of early January noted "funds available for the repair limit the number and magnitude of any changes that may be selected." Parents were asked to present their ideas of what should be repaired at the school on Calais Drive.

Seventy-two responses were received with repair of walls being the most frequent suggestion (64).

Other areas mentioned for repair included installation of fire-detecting smoke detectors (27), noise reduction (20), intrustion alarm (burglar) (9), more locked storage space, enclosed quiet room in each pod, and fire doors for each pod (5 each).

The PTA board voted to support the staff on their suggestions regarding repairs and changes to Armstrong. Listed as "equally important and mandatory" are smoke detectors, walls (to close off each pod from the library and with locking doors, and moveable partition between each classroom), and noise pollution control.

The 72 responses came out of the approximately 389 families of Neil Armstrong School.

Other business to be considered by the board will include the district's developer's policy, a presentation by the students of California High School regarding the alleged drug abuse in their school as claimed by issues of the Catholic Voice.

Livermore trustee hopefuls

Gower's views

Livermore school board candidate Richard D. Gower introduces himself in this campaign statement released recently:

"I am 33 years of age, married with two children, eight and five years old, both attending Arroyo Mocho School.

"The City of Oakland employs me as a civil servant supervisor in the fire service. I am a Chabot College faculty member and maintain a life state teacher's credential, limited to the fire science field.

"There are many problems within the Livermore School District at this time. One which concerns many of us is the high cost of running our school system and the education our children are receiving. I, for one, do not feel we are getting our money's worth.

"Our school system is overloaded with administrators and administrative aides, which eat up tax dollars, thereby removing teacher positions from classrooms.

"Many of our schools lack the necessary physical education facilities for students. A joint effort between the LARPD and the school board, in the development of school playground facilities, would not only provide the much - needed student facilities but would also provide the community with supervising playground directors during non - school hours, utilizing part or full - time employment for our many high school and college students who desire and need the employment.

"Also limited are classroom supplies, i.e. library books and special education materials for our gifted and handicapped students.

"The most serious problem facing the community is the lack of basic understanding by our present school board concerning the parent's desire as to what type of educational system is best for their children. We must provide the basic elements of both fundamental and open space school programs to meet the desires of our students and community and not programs based on the personal views of a few school board members."

Brice schedule

Livermore school board candidate Jan Brice will be meeting the public at a series of events this week, including:

FEB. 6: An open house at the home of Ayn and Ted Wieskamp, 1413 Lillian, 4 to 7 p.m.

FEB. 7: A coffee at the home of Ann Peters, 547 Jackson Ave., 10 a.m. to noon.

FEB. 9: A candidates' panel, 3:30 p.m. at Marylin Avenue School, 800 Marylin Ave.; California School Employes Association panel, 7:30 p.m. at Portola School, 2451 Portola Ave.

FEB. 10: An informational coffee or precinct chairmen, captains and walkers at the home of Jan Brice, 2705 Superior Drive, 8 p.m.

Sidhu's thoughts

Gail Sidhu, a Livermore school board candidate for the two - year seat vacated by Ken Engelund,has released a statement of her background and qualifications for the position as well as her philosophies on educational issues:

"I am a graduate of the University of Washington, Seattle. I have been a volunteer teacher for special courses, a PTA vice president and have participated in needs assessment in another district.

"I have three children at high school, intermediate and elementary levels and am married to a Lawrence Livermore Lab physicist. I own a retail business in downtown Livermore.

"Foremost among my concerns is the raising of the levels of academic achievement by our students. We are a community of selected people because of special circumstances and our students generally have the advantage of a family environment conducive to learning. It is, therefore, a very poor showing when our students perform comparable to or slightly better than the national average.

"I would require that specific goals in the essential basic skills be set at each grade level for both the general and the gifted student. Each school would be responsible for meeting these goals.

"As a result of my involvement in schools, I am convinced that because of different innate gifts, needs and inclinations, no one program is optimal for all students or teachers. In recognition of these differences I favor providing alternative programs to suit the needs and preferences of parents and children. A variety of successful programs should be available at each school.

"We must keep an open mind about innovative methods which can stimulate a child's natural love and urge to learn. This love of learning sets a pattern for the child's future. The results of all methods must be assessed systematically.

"The Tufold scheduling system at Granada has been praised by many parents and particularly by students who have benefited from that experience. I support this option for those who prefer it, including a similar choice at Livermore High. However, a viable structured program must also be available for students who benefit from a more traditional program. Students should be able to participate in the program best suited to their needs."

Karate studio organized in Pleasanton

PLEASANTON — A Japan Karate Do studio will open Monday at 148 Ray St., operated by Jeffery Thomson and Janet Chin, organizers of a karate club at Lawrence Livermore Laboratory.

Classes are scheduled for children on Monday, Wednesday and Friday evenings from 6:30 to 7:30; for adults and beginners at 7:30, and intermediate and advanced students on Tuesday and Thursday at 7:30 p.m.

Thomson and Ms. Chin have scheduled a special exhibition for 1 p.m. on Feb. 27. Featured will be Ryobu Kai master Kiyoshi Yamazaki and five black belt holders from the Los Angeles area.

For further information on classes and the special exhibition, Thomson and Ms. Chin may be reached by calling 447-1100, ext. 4347 or 4296.

Murray board views space rental pact

The Murray School District Board of Trustees will be asked for authorization to workup an agreement for rental of 10 rooms at Dublin School to the Valley Christian Center at Monday night's board meeting.

Trustees will gather at 8 p.m. at Cronin School, 6901 York Dr., Dublin.

A "candidates night" will precede the meeting at 7 p.m., sponsored by the Murray Teachers Association. Vying for the two positions to be open are Linda Cooley, Donald Biddle, Harry Molz, David Foster, and incumbent Linda Jeffery.

The selection of Dr. Donald Leu as consultant to head the search for a new superintendent will be ratified by the board and compensation established. Leu is an administrator in the education department at San Jose State University.

Acting Superintendent Heinz Gewing has said the consultant's position is usually paid between $3,000 and $4,000, depending on how many hours are spent in seeking applicants.

Wally Moreskine, acting assistant superintendent, will report on disposition of school sites in the district.

Moreskine notes that he was referred to a State Allocation Board regulation by a state Dept. of Education member, dealing with the disposition of property sites only.

The district currently owes $259,877.33 on the 9.88-acre property near Foremost on Dublin Boulevard in Dublin, and $342,017.25 on the 13-acre Stoneson property, which is near Muirwood Drive on the south and Forest Hill Drive on the west in Pleasanton.

Based on regulation, and the amounts owed, Moreskine recommends the district start proceedings for the disposition of the Foremost area site and to apply to the State Allocations Board for the use of funds needed for the project at Frederiksen — and for possible addition to the shop area at Wells Intermediate.

Also coming before the board Monday are policies on a revised lunch program, summoning of law enforcement officers, and a conflict of interest statement. The board will act on an agreement with the Amador Valley Joint High School District for a school lunch program, consider selection of an architect for conversion of Frederiksen School, receive a petition from Steve Wallace opposed to conversion of Frederiksen, and hear reports on the summer school program, environmental education grant, and Cronin School resource program.

Foreign language trends

Similar patterns appearing

The research of a Foothill High School teacher toward his doctorate has disclosed that foreign language students "in a very one - cultured community like Pleasanton are no different than foreign language students in a bi-cultural community such as Montreal."

Neal F. Cavanuagh, an English and foreign language instructor at Foothill High School, completed all the requirements for the doctorae as of Dec. 11, 1976.

He did his research in foreign language education as it is his profession. "The insights I have gained from that research on the sociological and psychological preparation that students have for foreign language have made, and will make me a more sensitive teacher."

The purpose of his dissertation research was to study the sociological and psychological "baggage" that a high school student brings to the study of foreign language.

Pursuing research begun by a team of Canadian scholars, he studied students in the Amador Valley to determine the extent to which peer pressure, parental influence, stereotypical perceptions, previous foreign language, desire to learn foreign language, sensitivity to others, and several other charactieristics affect the student's process in foreign language.

The major findings of his research, in addition to the one - cultured and bi - cultural aspects alluded to in the opening paragraph, were as follows:

Unfounded stereotypical perceptions of foreign people play a major role in the student's willingness to learn a foreign language.

Though most students (60 per cent) want foreign language as a tool to college or career entrance, those who want it for entrance into the foreign society (26 per cent) are most successful in learning the foreign language.

Cavanaugh found that males strongly perceive foreign language as a tool to college or career entrance (80 per cent), whereas females are more equally divided.

There is presently a shift in reason for enrollment in foreign language from college requirements to interest (60 per cent to 20 per cent in 1970, to 35 per cent to 34 per cent in 1976).

Teachers' perceptions of student skills and abilities often do not correspond to the student's perceptions of his or her own skills and abilities.

Generally, there are four areas which influence a student's success in foreign language; Aptitude, 33 per cent: intelligence, 20 per cent: motivation and perseverance 33 per cent: other, 14 per cent.

Ever since he entered college, Cavanaugh has had as a personal goal to earn a doctorate. Having accomplished such a goal was very gratifying. "I feel a great sense of fulfillment and pride; and I am particularly happy that I was able to reach my goal with the inspiration and assistance of the faculty at the University of California at Berkeley."

Neal F. Cavanaugh, Ed. D., has been with the Amador Valley Joint High School District since September, 1968. His assignments have been English and foreign language, first at Dublin High for five years, then Foothill High.

He took a leave of absence in 1975-76 to do his research for his degree.

Symposium on SB 160 slated

A symposium on Senate Bill 160 implementation will be presented at the Phi Delta Kappa dinner meeting Thursday, Feb. 10 at the Holiday Inn in Livermore.

Guest speakers will include Charles Hinton, California Teachers Association, Richard Currier, Association of California School Administrators, and Tom Agin, California Personnel and Guidance Association.

Persons who are not Kappans who wish to attend should contact Dr. David Carlisle at the Amador school district offices, 462-5500.

Parks invites works

Amateur photographers are invited to enter the second annual "Parklands in Pictures" contest run by the East Bay Regional Park District.

Photos taken between Jan. 1 and Sept. 30, 1977, are eligible for the contest which closes midnight Sept. 30.

Pictures must have been taken in one of EBRPD's parks, which locally include Shadow Cliffs (Pleasanton), Del Valle (Livermore), Las Trampas (Danville) and Sunol Regional Wilderness.

There's no limitation on the subject matter.

There are three categories: color prints, color slides and black and white prints. Only amateur photographers may compete.

If any person(s) in your picture is identifiable, a release form (available from EBRPD) must be signed by each person in the picture. A total of five entries may be submitted by each contestant.

Prints must be 5x7" or larger, mounted on 16x20" boards. All identification must be attached to the back of the mount. Slides may be either 35mm or 2¼" square and muat be spotted in the left - hand corner for proper viewing direction. The photographer's name, title of picture and location should appear on the back side only.

Hospital to honor veterans

LIVERMORE — Valentine's Day will be the occasion for a salute to the 800,000 veterans hospitalized annually in this country.

At the Livermore Veterans Administration Hospital, No Greater Love, a nonprofit organization, will honor veterans. No Greater Love sponsors programs of friendship for hospitalized veterans, children of men missing and killed in action in Southeast Asia, senior citizens and other special American groups.

The Feb. 14 program's purpose is threefold — to pay tribute and express appreciation to the veterans hospitalized each year in the 171 VA hospitals in the nation; to establish and promote a continuing awareness of these Americans; and to show recognition to the various groups of the VA Voluntary Service Program who serve hospitalized veterans.

SRV trustee candidates

SAN RAMON — After tossing his hat in the school board candidate's ring, Patrick Neil Althizer is presenting five of his viewpoints.

He contends he is a non-partisan candidate without any special interest backing his campaign. The following is the second of five views he will be offering.

"VOCATIONAL TRAINING — practical application of theory through apprenticeship with business is the best way to truly learn. More programs which allow credits towards education by working in the **real** world should be encouraged. Business will benefit if students are allowed to work as part of their career goals. A probation period of one month would allow business owners to decide if the student represents an asset or liability. If the student displays the attitude of 'entertain me' then another candidate can be considered. If the student shows that he or she is there to learn from the experience of the program then the business owner will derive a mutual benefit. Community service for the handicapped and senior citizens should not be overlooked as areas of gaining practical learning experience.

"Business pays tax money for schools, but business has no children in schools. If students are allowed to work for business as part of their education. both business and student would mutually benefit."

Althizer said he welcomes rebuttal.

SAN RAMON — Don Sledge of Danville has announced his candidacy for a seat on the board of education for the San Ramon Valley Unified School District.

Sledge, president of the Greenbrook Homeowners Association, gained valley-wide prominence during last year's incorporation effort involving San Ramon, Danville and Alamo.

As chairman of Taxpayers for Local Control he spearheaded the effort to bring the incorporation issue to voters. His campaign for election to the proposed town council won him the second highest number of votes in the final tally.

Sledge said he sees his candidacy for the board post as a chance to apply his business skills to the management of the SRVUSD. He joins eight other contenders for three seats which will become vacant in March.

Sledge is slated to appear at two candidates meetings sponsored by the American Association of University Women and the League of Women Voters.

One will be at 7:30 p.m. on Feb. 16 at the SRVUSD office, 699 Old Orchard Drive, Danville. The other will be Feb. 24, 7:30 p.m. in the multi-purpose room at Walt Disney School, 3250 Pine Valley Road, San Ramon.

Appointments for coffees or requests for speaking dates by candidate Sledge may be made by contacting Larry Leedham, Sledge's campaign coordinator, at 820-1173.

Those wishing to lend support or make donations may call the same number.

Chairman needed

Livermore

Livermore Airport committee members will meet noon Monday to name a new chairman to replace Bill Bennett who quit that post last week to spend more time with his expanding laundry businss.

A new vice chairman will also be selected.

In other business the committee will:

— consider reports on the status of property acquisition for an East Clear Zone and West Clear Zone.

— consider a draft agreement to allow installation of a visual approach slope indicator (VASI) system.

— review for recommended approval a recently revised six year capital projects budget.

— review a six months profit and loss statement.

— consider a revised layout of a proposed airport and golf course brochure to attract new users.

— review an airport user questionnaire prepared by the Metropolitan Transportation Commission.

Housing site

Pleasanton Housing Authority commissioners will meet at 12:30 p.m. tomorrow at Komandorski Village to review the site with developer Jack Baskin as part of the PHA's planning to build new housing on the site.

Commissioners also will meet at 7 p.m. Wednesday at Kottinger Place to interview architects for the new Komandorski Village replacement housing.

Hasseltine calls

Eric Hasseltine, fifth district supervisor in Contra Costa County, has set Feb. 10 as the date for the next liaison meeting to be held at 7:30 a.m. in the Danville Hotel Restaurant and Saloon.

This is a one-time change. Ordinarily, the group convenes the first Thursday of each month.

The public is invited.

LEGAL NOTICE

NOTICE TO CONTRACTORS
NOTICE IS HEREBY GIVEN that the Board of Trustees of the Amador Valley Joint Union High School District of Alameda and Contra Costa Counties hereby calls for sealed proposals to be delivered to the Director of Purchasing of said District at the office of said District in the District Administration Building, 123 Main Street, Pleasanton, California, until February 23, 1977 at 2:00 P.M., at which time and place said bids will be opened for the furnishing of all labor, materials, equipment, mechanical workmanship, transportation and services required for the finishing and painting on the site of Dublin High School, 8151 Village Parkway, in Dublin, Alameda County, California and Foothill High School, 4375 Foothill Road, in the City of Pleasanton, Alameda County, California, for the AMADOR VALLEY JOINT UNION HIGH SCHOOL DISTRICT of Alameda and Contra Costa Counties.

These bids shall be presented in accordance with specifications for said work which are on file at the said office of said Board, located as above mentioned.

Bids must be made on bid forms obtained at the said office and must be signed by the bidder and accompanied by a bid bond duly executed by the bidder as principal and a corporation authorized to do business in the State of California as surety naming the AMADOR VALLEY JOINT UNION HIGH SCHOOL DISTRICT of Alameda and Contra Costa Counties as obligee, or by a cashier's check or certified check, certified without qualification drawn on a solvent bank of the State of California or on a national bank doing business in the State of California, in the amount of ten per cent (10) of the total bid, and made payable to the AMADOR VALLEY JOINT UNION HIGH SCHOOL DISTRICT of Alameda and Contra Costa Counties. Should the party or parties to whom the contract should be awarded fail to enter into the contract after the award and to file the required bonds, the proceeds of said certified or cashier's check or the amount paid by the bidder or his surety pursuant to the terms of said bid bond either voluntarily or pursuant to the judgment rendered by the court in any action brought thereon will be retained by said District as agreed and liquidated damages.

The contractor and all subcontractors under him must pay all laborers, workmen and mechanics on said work, or any part thereof, not less than the general prevailing rate of per diem wages for legal holiday and overtime work, for work of a similar character in the locality in which the work is performed, to wit: said School District, which per diem wages shall not be less than the stipulated rates contained in a schedule thereof which has been ascertained and determined by said Board and which is now on file in the office of said Board and by reference incorporated and specified herein and made a part hereof, copies of which are available at said office of said Board, to any interested party upon request.

The Board reserves the right to reject any and all bids, or any or all items or alternates or propositions of such bids.

BY ORDER OF SAID BOARD, January 11, 1977.

KNOW YOUR FOOD

WHAT'S PERCOLATING WITH COFFEE PRICES?

This question is being asked with increasing frequency by consumers these days. Coffee prices have skyrocketed to astonishing highs. The United States Department of Agriculture predicts high coffee prices may prevail for some time. Consumers will find answers to some of their questions in the following:

Q. Why are coffee prices so high? Consumers don't like it!

A. Retailers don't, either. Among reasons for high coffee prices are the green coffee bean shortage caused by the severe frost in Brazil, floods in Colombia, civil war in Angola, and other disasters. Concerned consumers hope world coffee prices will return to normal when effects of the natural disasters are past.

Q. What can consumers do about the situation?

A. Some coffee lovers are simply swallowing the high prices along with their favorite beverage. But many others are substituting other beverages until the world coffee situation returns to more acceptable levels. Admittedly, the coffee habit is hard to change but many people are doing it. Tea is rapidly becoming a favorite along with bouillon and other delicious drinks.

Q. How do I estimate the per cup cost of coffee?

A. Generally, a pound of regular coffee will yield about 50 cups.

Source: University of California Cooperative Extension; USDA

Items and prices in this ad are available February 6, 1977, thru February 8, 1977, at all Safeway Stores in the following counties: Solano, Napa, Sonoma, Marin, Contra Costa, Alameda, San Francisco, San Mateo, Monterey and Santa Cruz.
